

Rhinoplast Double Sided Butyl Tape

Dimensions 50mm x 15m

- Provides an effective seal on all joints

Description

Rhinoplast Double sided Butyl Tape is a extruded butyl rubber modified jointing strip, which will adherer membranes, Top Hats and Damp Proof Courses with a gas tight seal. This product is designed to remain tacky at temperatures as low as 0 °c

Application

A tape for bonding Damp Proof membranes (DPM) at overlaps and for bonding membranes to Damp Proof Courses (DPC) at junctions with internal and external walls
